

Skydive New England Block Jump Agreement

(In an effort to stave off any misconceptions about our super low cost block jumps please note)

Block jumps purchased through Skydive New England have the following terms and conditions:

The block jumps can be used **only** by the purchaser and cannot be used for any other person or purchase. When buying block jumps at the discount rate, there will be a credit issued to your account, please see the example below.

Example:

A 100 block is purchased at the discount rate of \$20/per jump, for a total of \$2,000. A credit of \$400 will be issued to you, yielding a balance of \$2,400 on your account. Your account will be charged the regular slot price as your ledger has been credited for the difference.

If you do not use your block jumps in the season, the “credit” will be removed from your jump account. You will still have a positive balance for the remainder of the \$2,000 or a \$0 balance if you’ve exceeded the \$2,000, but used a portion of the credit (i.e,for 100 blocks, you will be jumping off the credit after 83 jumps).

The balance remaining on your account can be used for any full price jump, transferred to another party, but cannot be combined with the next season block jump special.

Block jumps are offered in 100, 50, 25, and 10 increments and subject to change. We will honor the block jump agreement entered into at the time of purchase.

Please read and sign the agreement when purchasing the block jump special!
